

Word Given By: Pastor Nancy Dufresne  
Word Given To: Church Body, Pastors & Family  
Date: Sunday PM, 1-14-18

Church: "And I speak another level of increase for this congregation, another level, a divine assistance for this congregation. Angels dispatched to help fulfill the vision. The angels will help the people in the church that have joined themselves to the vision. They'll work for you. When you decide that you're going to be a supply to the vision of the Pastors, those angels will go to work for you. Hallelujah. So, realize that the increase and the aid that He gives you is for you to be a greater blessing, and God will bless you in blessing.

The anointing and the grace of divine increase upon this congregation, because Your vision is so rich for this people, Your vision is so rich in this Pastor and so rich for this community. I thank You Father for increasing and increasing and increasing. In Jesus' Name. I thank You for it Father.

Don't think, oh I know what God's going to do. Oh yeah, I've seen Him do it. He's done this, and He's done that, because what He's going to do, you've never seen demonstrated in this place before. So, don't come in with a mindset of I've already seen that, I've already been a part of that or oh yeah, I helped pray about that, because if you do, you'll be left out. Because God is going to do something you haven't seen demonstrated before and it's going to take you on the edge of your faith seat to say, Father, we're hungry, we're reaching and we're moving, and do it, and do it in a way that everybody knows it's Your working in our midst. There's going to come a day where you're going have to come early and fight for your seat, because somebody would have already fought for it if you come in late. Don't come in here just thinking, oh we just going to come in and get our seat. You're going to have to come in and fight for it and it's going to be the good fight of faith. There is such an expectancy in the realm of the spirit and you can just sense it. You better tighten up your running shoes. Don't lace them loose, they may fly off. I cannot express to you, not every congregation gets to be in a momentum and in a place like you're in. Don't treat it lightly. It is a privilege, complete privilege, complete privilege to be in a place that has the momentum of faith moving with it. Amen. Hallelujah.

Say this:

'Divine increase is moving upon this church family, it's moving upon me, it's moving upon my family and we shall flow in the fullness of what that increase holds – financial increase, numerical increase, the increase of anointing, the increase of healing, the increase of miracles, the increase of the gifts of the Spirit. Hallelujah.'

Pastors: "When I said that about healing angels dispatched, there's more dispatched to you for this work. There is dispatched an angel and he is dispatched to you for the working of miracles. You know when these angels come, they come, and they're dispatched to us and we don't want to frustrate them by not letting them fulfill what they came to do. Increase your feeding in the direction of divine healing and miracles, increase that. I'm not saying your not doing that, but increase that, because what that will do is boost your faith up to another place that the angels can work at another level. Because if we're not careful, sometimes, and rightly so, we're feeding the sheep sheep-food, but we can't neglect that's still sheep food. And because that's an emphasis of this last day era, we're going to have to not neglect that just because it's been part of our spiritual ministries, we're going to have to accelerate it. So, I would say that to you by the Spirit, feed more because there's going to come cases and help that God has for people that it's going to take the divine. And when we do, then what happens is we set ourselves up as a healing station. You know, where people, the community says, 'I need a miracle and that's the place I get to. I have to get to that church.' And so, we have to give God the ability to label us as a place where

people can come and get healed. If we're not operating in that as we should, He can't send that message out into the community."
