“The era is going to call for more than what this will facilitate. Now, use the time to enlarge yourself, don’t waste this time because if you waste it, you might not enter into the fullness of it. You have to use the time of the in-betweens to enlarge yourself. What’s that mean? Become skillful, become skillful. Father, we thank You for the property of your plan, all, every inch of Your plan that it comes in Jesus’ name. You come in Jesus’ name. Money come, provision come, equipment come, supply come, furnishings come. Now, there are two angels tonight that come and they are dispatched for the purpose of the future of the plan. Now, angels, you go, your special assignment is the fulfillment of the plan of this local church vision. I don’t know how many other angels, Pastor, because you already have angels that work with the church. I understand that, but God will dispatch based on assignment, so, the assignment is larger, so, it’s going to require more. So those angels, you come, you have come to fulfill and we want your desire satisfied as well. The angels are ministering spirits and they have desires to minister the plan, and we want the angels’ desire fulfilled because their desire is God’s desire. So, Father, may Your desire be fulfilled. So, angels go, they go, they go, they go and bring all the supply needed, they bring it all, they bring it all, the right people, the right everything. Hallelujah, we thank You for it, Father.

Angels need fuel, the more you will express your faith in the plan, the more they will excel in your work. So, as a congregation, those angels are working. Pastor, those angels are working. You need to say it every day, it needs to be a part of your confession, ‘Those angels are working to bring into our hands the property, to bring into our hands the building, the equipment, everything needed, the angels are working, the angels are working, the angels are working.’ As you do that, you’re authorizing them. They won’t work without your permission, they don’t work just because God sent them, they work because we, with the authority, authorize them to do and fulfill what God wanted them to accomplish. They’re working, they’re working. The angels are working for the plan of the era. Don’t let your mind get on it and say...God will get your thinking on things long in advance to give you the opportunity to enlarge so you don’t slow down the process. When the time comes, things need to come to pass. If you’re not enlarged enough, you can slow things down. How do you enlarge yourself? Speak it, feed your faith, earnestly contend.”

“No, this is a landmark of beginnings. This is a beginning of a new day in the healing anointing, this is the beginning. So, from this day out, there will be such a flow, there will be healing power moving in the atmosphere that if faith will just reach up, if faith will just extend in the direction of that flow, that anyone, anyone, anyone in need of it can receive it, anyone.

I’m talking day after day, after day, after day, after day, it will come to pass. We’re in it, we’re in it and your church is in it. But, you’re in the remnant and I tell you that’s a precious place to be, you’re the fire starter log. We want the fire blazing, but somebody’s got to be the kindling, somebody’s got to be the starter for it, this church is that. And we say, ‘All the money comes to fulfill every phase of growth and development in Jesus’ name,’ and it shall come to pass.”

“Father, we thank You for the grace for the next. They’ve walked in the grace to even reach this point, but now, Father, there is a flow of anointing, there is a flow of the Spirit for this congregation to move into. That’s why You had me go that direction ministering in these services, and we thank You for the tangibility of that anointing. We thank You for that tangible anointing. More will begin to operate and a greater degree of the tangible anointing. A greater degree of the tangible anointing is going to operate when you get into that new building, in the new section, you receive it.”
