

Word Given By: Pastor Nancy Dufresne
Word Given To: Pastors and Church Body
Date: Monday PM, February 8, 2021

There's somethings He wants to manifest, not just in your life, but in the vision of this church. And He doesn't want it taking as long as the previous seasons. Why? Cause time is short. We don't have time for things to take as long as they did in a previous season. So, I'm teaching you how to speed things up in your own life so that you'll know as a body how to speed things up; because how we treat the Word is going to determine how fast the whole vision can go. It's not just about the Pastors; we all have to come along. We all have to come along. We all have to come along. So, when you speed up manifestation, you speed up also the momentum of this church family. Amen. Father we thank You. We thank You. We thank You. We thank You Father.

We thank You for the fullness of what You've put in our Pastors' heart – the vision. We call for it to, we call for the pace to pick up. We call for the manifestation, the fulfillment of the vision to be sped up. We thank You for the supernatural favor, the supernatural funds, the supernatural help of heaven. We call for an acceleration, the speed up of the manifestation, and it's by the Word. So mightily grew the Word and prevailed. We thank You Father. We thank You. We thank You Father. We thank You. We thank You for accelerated completion of every project, but taking on others. You know what you've done here, you've done it one phase at a time. It's appropriate, it's right, but God's going to put on the plate of this church body many things all at once. Many things and you can't look at it and go, "Hmmm, that's a lot Pastor. You're talking about a lot." No, no, we're going to speed up. We're going to speed up. That's why God wanted me . . . I haven't preached about this in several years, and God said to me yesterday morning, "I want you to preach about the speeding up the manifestation." Why? You thought it was for you. Yes, it is for you because it begins with you. What happens to you is multiplied in the church, but if you're behind that's multiplied in the church. God has many things Pastor, He's going to put on the faith of this congregation, and you can do it. You can do it. When it feels like it's a lot, tank up. Tank up on the Word. Tank up on the Word. Tank up on the Word. Tank up on your saying of the Word. Tank up on your rejoicing and your praising because all of that is the flow of the Word. Remember what I said, you have to increase the Word going in but increase the Word coming out. It's not enough that it goes in, it's got to come out, but you can't come out what hasn't been deposited. There's going to need a lot flowing out of you, a lot of faith that's going to be needed. These coming two years, coming two years, there's going to be acceleration. That property, Pastor, all, I mean, just a domino effect. That thing moving quickly; everything happening, quickly, quickly, quickly. It's in the mind of God that that thing be an accelerated process. That's His thoughts toward it. That's His thoughts toward it. Not just one thing at a time because that's the pace we're comfortable with and the pace we know. He's going to, He's gonna stack. He's gonna stack. He's gonna stack it. That just means that you're going to have a stacking up of increase, a stacking up of provision. Amen. Do not look to Texas' economy. Don't look to anything, nothing of the measure of what would be appropriate for the economy of this region. That has nothing to do with it. God has been proving and showed us, those of us who have been building our ministries on the Word, He's shown us these last months through this COVID thing. He has shown Himself, see, I don't need things to be the way they were for you to have more. Cause see, we just think that things have to be, everything has to be in order and working right. It doesn't have to be a certain way. I'm not saying it's right that churches weren't meeting, don't misunderstand me. I'm saying this, even when things are beyond our control, we're not beyond our inheritance. There's not just an inheritance for you and for your family, there's an inheritance for this local body. Father we thank You. Angels working, angels working, angels working. An increase of angelic participation because of the increase of the projects, the increase, the increase Father. We thank You for an increase, we thank You Father. We thank You Father for the increase. We thank You for (*lays hands on Pastors*) the increase, the increase; the pace, the pace, the pace of it. We thank You that the angels, angels, increase of angels working, working, working, working so busy, so, so, so busy. So many ranks of them. So many ranks of them working, working in the behalf of the congregation, working in behalf. We thank You Father. We thank You Father. We thank You Father. We thank You

Father. We thank You Father. You know, at wedding season you have a bride and she's got a book that has all of the steps laid out. A year in advance you need to get a venue. It breaks it down over time. At nine months, you know, make sure you have your dress. They have all the things that have to be done but if you didn't get it done at nine months it's okay, you've still got time. You can do it at six months and if you didn't get it done at six months, that's okay, you've still got time. There's three months, you know, and then there's two months. Two days before the wedding if you haven't done it, forget it now sister, you've got no more cushion of time. We're getting so close to the marriage supper of the Lamb. We don't have time for the things we used to give time to. We don't have time. We don't have time to take several years to build a building. We don't have time. There's going to have to be an increase of manifestation. God's not, we're not waiting on God, He's waiting on us. The more we as a body take that Word and implant it and engraft it in us, engraft it in us, thinking right, renewed mind, the quicker He can work and manifest and cause things to come to pass. I'm just telling you, that building and more buildings, more buildings, buildings, buildings, buildings, buildings, buildings, buildings, just popping up like popcorn, just popping up like popcorn. That's God's mind on it, but it's your privilege to walk it out. It's not enough that it's His mind. That anchors us as we walk it out, but we still have to walk it out. Amen. That's how you're going to walk it out. So mightily grew the Word and prevailed. Amen. Father we thank You. We thank You. I'm so thrilled. It's almost like, can I move down here and be a part of this? I love that momentum, I love, it's addictive. You think speed and roller coasters and all that are addictive, get on this kind of addiction, man. The momentum of the plan of God, whew, there is a thrill with that! Hallelujah.

All the money, all the money, all the money, all the money come. All the money come. All the money come. All the money come. All the money come. All the money come. I love what your Pastor said tonight; He talked about sacrificial giving. There's something that you would have done for yourself, but you sacrificed to help it along. I remember something was presented to me that I needed to do financially, and I go, "I don't know about that Father." You know, I had gotten into some places of increase and paying off of some things. I said, "I don't know. This other thing, you know, it's going to, it's just going to reflect differently on my finances." And God said to me, He said, "I'm calling you to put yourself on the line for that situation because for you to fulfill what you're called to, somebody's gonna have to put themselves on the line for you. If you don't sow putting yourself on the line, you won't reap someone putting themselves on the line for you." That's called the sacrificial giving he was talking about. This is what you need to understand, everything that comes to you is not for you. When you understand that, you're safe with it. When I get a large sum of money given to me, I don't say, "Ooooh!" I mean, yeah, naturally I go, "Oh yeah, I can use that." But I always say, "God what do you want me to do with this?" Because it might all be for me, but it might not be. Amen. Hallelujah.

We thank You Father. Speed up, speed up. The pace of the former season is no longer acceptable. The pace of this (*looking around sanctuary*), was appropriate, this building. The pace of this was appropriate within that season but you're not in that season anymore. So, this pace is not appropriate anymore, and it's not a negative, it's a positive. Amen. Hallelujah.

Different seasons call for different skills. He's calling us to a higher faith skill; a higher Word skill; a higher giving skill; a higher receiving skill. Praise the Lord. I am thrilled, thrilled, thrilled. I am thrilled, thrilled, thrilled for what God is gonna do. Yeah, yeah, don't let this (*pointing to mind*) get in the way, don't let this (*pointing to mind*) get in the way. Hallelujah. Praise the Lord. We thank You Father. We thank You Father. We thank You. We thank You. Praise the Lord. We're doers. I said we're doers. We're doers. We don't just say, "Oh we love the Word." Jesus said, "If you love Me, keep My commandments." Amen. Hallelujah. If you abide in Me and My Words abide in you, that's when everything gets done. That's when everything gets fulfilled. Hallelujah.
