There is coming far greater revelation regarding; there's much building for you to do. There is so much building for you to do and there is going to come divine revelation that is going to be articulated in a divine way that you've never heard before. It will cause those things to be accomplished quickly and rapidly in Jesus' name. We thank You Father it will be. People will come to a location and see no building there and a short time later they will come and say, "How did that happen so quick? How?" We don't even know naturally how that was carried out so quick. It's because it's divine help, divine acceleration. We thank You for it Father.
